Environmental Policy Statement

Environmental Policy Statement

Suttle Projects Ltd is committed to ensuring that all our activities are carried out in accordance with our business management system, which has been certified to ISO 14001:2015 standard to minimise its impact on the environment in all areas of work activity through the following principles:

- i. Committed to protecting and improving the environment
- ii. Preventing pollution to air, land and water
- iii. Minimising resource usage
- iv. Promoting the reuse and recycling of materials and encouraging biodiversity and managing our impacts.
- v. Reducing and effectively managing waste, water usage, noise, nuisance and disturbance
- vi. Reviewing our energy, carbon and emissions to air
- vii. Setting and monitoring environmental objectives
- viii. Promoting car sharing where possible
- ix. Commitment for continual improvement of the environmental management system

The Suttle Projects Management System interprets, and where possible exceeds, the requirements of Legislation and the Client into the work activities with regard to the environment for all staff and organisations who work with us.

The Suttle Projects Board shall encourage all who work with, and for, our organisation to make improvements in environmental performance and keep pollution incidents to a minimum.

Suttle Projects shall ensure that staff and the supply chain are fully trained and resourced to discharge responsibilities in order to meet all necessary standards.

This policy and associated procedures shall be formally reviewed annually or as a result of changes in legislation, scope or performance.
